

Read Me !

Read the following "Warning" and "Attention" first !

THIS MESSAGE IS VERY VERY IMPORTANT ! PLEASE
READ CAREFULLY !

! WARNING !

The extracted XCF files in total could be " AWFULLY HEAVY
! "

- those 36 huge XCF file-sizes in this set are over than 1.5 GIGA BYTES (1,556.4 MB) in total after extracted -
- beside (super-compressed file-sizes) - are 62.8 MB only ...
- and 36 smaller XCF file-sizes are 41.6 MB in total after extracted -
- beside (super-compressed file-sizes) - are 4.9 MB only ...
- also attached "Preview-image" in XCF format has 42.1 MB itself after extracted -
- beside (super-compressed file-size) - is 5 MB only ...

So the total-size of these all XCF files in this set, after extracted, could be 1,640.1 Megabytes (1.64 GB)
... and it is awfully heavy enough to damage your computers
... :p

Attention ! THIS IS VERY VERY IMPORTANT !

To avoid the "SUDDEN DEATH" of your computers,

PLEASE DO NOT CLICK those 7-Zip(.7z) archived files AT
ONCE !

To avoid the "SUDDEN CRUSH" of your computers,

BETTER DO NOT CLICK several huge XCF(.xcf) files together !

Do it everything at your own risk though : p

ok, then

Thank you for downloading this XCF image set.

" Plasma Gradients " gradation textures XCF set 03
